The following is a legend for the attached sketch of the Insulation Materials Factory, located on Strada Obor, Bucharest:

A. Building, about 70 by 6 meters, divided into the following units:

1. Machine shop: 28 to 30 people are employed in this shop. It has the following equipment: 8 lathes, including one turret lathe, old machinery but in good working order; two to three vertical drills; and one forge operated on fuel oil.

2. Electricians' shop: four employees for servicing the power plant of the factory.

3. Insulating cork plate unit: about 40 employees.

4. Warehouse for finished material.

5. Warehouse for storage of raw material.

B. Methane gas supply center: 3 by 3 meters.

C. Employees' messhall; one-story building, 25 by 8 meters. There is a first aid station in the same building.

D. Nursery: about 20 by 4 meters. Three girls and a civilian doctor are assigned here to oversee and aid the children.

E. Building, about 12 by 6 meters, divided as follows:

1. Office of the Labor Union Committee: consisting of three employees; deal with labor disputes among the workers.

2. Trade section.

3. Factory guards
